(b) a Ruler or a subject of a State in India in respect of whom the Governor General in Council has made a declaration under section 96 A of the Government of India Act :

Provided that in the case of a British subject the requirements of this rule may be waived by the Secretary of State in Council if he is satisfied that their observance would occasion exceptional hardship, and that the candidate is so closely connected by ancestry and upbringing with His Majesty's dominions as to justify special treatment.

3. A candidate must furnish a declaration from his father or guardian, in the form prescribed, that the latter is in a position, and will be prepared to discharge the financial obligations attaching to the candidate's training at the Indian Military Academy, Dehra Dun, and that, if such candidate is selected for admission, the parent or guardian will be required to sign a declaration that :—

(a) if his son/ward withdraws from the Indian Military Academy, before the termination of his course, or

(b) if, on the termination of his course, his son/ward declines to accept a commission in the Indian Army *for reasons within the control of the parent/guardian or the cadet* (on which point final decision will rest with the Government of India) he will be prepared to pay the full cost which Government may have incurred on his education at the Indian Military Academy.

4. The maximum number of candidates to be admitted to the examination may, in the discretion of the Governor General in Council, be limited to such number as the Governor General in Council may decide. If a limit is imposed and the number of candidates exceeds that limit, the Public Service Commission shall select from among the applicants those who shall be admitted to the examination and shall have regard in so doing to the suitability of the applicants for employment as commissioned officers in the Indian Army.

SYLLABUS

OF SUBJECTS FOR THE ENTRANCE EXAMINATION TO THE INDIAN MILITARY ACADEMY, THE ROYAL AIR FORCE COLLEGE, CRANWELL, AND THE ROYAL INDIAN MARINE.

PART I.

1. *Interview and Record.*—The object of the interview is to ascertain whether the candidate is suitable in respect of personality and other matters for the position of a commissioned officer in the Indian Army.

2. *English.*—The questions will be designed to test the candidate's understanding and command of the language. A passage will usually be set for summary or precis.

3. *General Knowledge.*—The questions will be designed to test the candidate's knowledge of and interest in current events and in such other subjects as should be within the knowledge of Indian candidates of the prescribed age. The paper may include a general question or questions on literature.

4. *Elementary Mathematics.*—(i) Arithmetic including problems about money, imperial and metric weights and measures, mensuration, percentages and averages.

Knowledge of recurring decimals, scales of notation, stocks and shares, foreign exchange, and true discount is not required. Contracted methods are not required; when an approximate result is required candidates may work with all the figures supplied or make legitimate discards at any stage. The arithmetical rules for square and cube root are not required.

An arithmetical result may be required to a certain approximation or the data may themselves be only approximate. In such a case, to give the result to a greater degree of accuracy than is asked for, or is justified by the data, will entail loss of marks. Candidates are expected to understand such phrases as "three significant figures", "four-figure accuracy".

(ii) A sound appreciation of the following properties of plane figures will be expected, but proofs of these properties will not be asked for:—

Properties of angles at a point, *e.g.*, that vertically opposite angles are equal.

Congruence properties of triangles, *e.g.*, the nature and number of the conditions that determine a triangle.

The conditions of similarity of two triangles, *e.g.*, the conditions which determine the shape of a triangle.

The following plane loci: the locus of a point equidistant from two fixed points, and the locus of a point within a given angle at equal perpendicular distances from the arms of the angle.

The conditions of the parallelism of two straight lines in various forms.

Proportion properties of parallels; the treatment of incommensurables not being required.

Perimeter and area of a circle.

Surface-areas and volumes of prisms, cylinders, pyramids, cones, with such simple problems on these figures as can be solved by the geometrical properties mentioned in this and the next paragraph. Surface-area and volume of a sphere.

The representation of the simplest three-dimensional figures by means of plan and elevation.

(iii) Of the following properties a sound appreciation will be expected, and proofs may be asked for. Candidates may base their proofs on the properties mentioned in the preceding paragraph or on other grounds:—

The Angle-sum property of a triangle.

Properties of the parallelogram.

Little skill is expected in algebraic manipulation, as for instance, in long multiplication and division, factorization, transformations of expressions, identities, inequalities, and the simplification of fractions; only such manipulation will be expected as arises naturally out of simple problems.

(v) *Mode of Treatment.*—(a) Grasp of elementary principles and readiness in practical application will be looked for. Numerical results should be worked out to a few significant figures. Candidates may be required to apply checks in the case of particular results; they may also save themselves from blunders by applying checks even when not demanded. No great skill in the use of drawing instruments will be expected, but slovenly work will entail loss of marks.

(5) Credit will be given for the clearness and aptness of the language of the answers, deduction will be made for obscurity or slovenliness, and especially for bad grammar and the incorrect use of words or phrases. The use of mathematical symbols and of well-established abbreviations such as 'lb.' and 'cm.' is permissible, a calculation can often be exhibited clearly without the use of words, and a tabular form is often appropriate; but abbreviated sentences such as are appropriate in telegrams will involve loss of marks.

PART II.

N.B.—Although choice between the various subjects of Part II is not restricted, candidates who aspire to commissions in the Artillery of the Engineers are reminded that for the studies they will have to undertake at the Indian Military Academy the most useful subjects in this Part II are Lower Mathematics and Higher Mathematics or Physics.

No. 172.—In exercise of the powers conferred by section 16 of the Canals and Public Ferries Act, 1890 (Madras Act II of 1890), and in supersession of Public Works Department Notification published at pages 1401 to 1405 of Part I of the *Fort St. George Gazette*, dated the 11th December 1923, the Governor acting with Ministers is hereby pleased to make the following rules in respect of the Kotipalli ferry, Ramachandrapuram taluk, East Godavari district:—

1. The licence for every vessel used for the conveyance of goods, animals or passengers across the Kotipalli ferry, Ramachandrapuram taluk, East Godavari district, shall be granted by the President, District Board, East Godavari (herein referred to as the President) for such period and subject to such conditions as he may fix.

2. The licence shall not ply any steamer unless it has been approved by the President or by a person authorized by him in that behalf.

3. (1) Save as provided in sub-rule (2), the licensee shall ply the steamer across the ferry on all days in the months of July, August and September:

Provided that the licensee may stop the steamer service on the 16th, 20th and 30th of each of the said months for the purpose of cleaning the steamer but he shall arrange to ply on those days such number of boats as may be necessary for the conveyance of passengers without causing them any inconvenience.

(2) The licensee may suspend plying the steamer if and when there is not sufficient water in the ferry for the steamer to ply. Whenever the plying of the steamer is so suspended, the licensee shall ply a sufficient number of boats as required under the rules published in the supplement to the *Godavari District Gazette*, dated the 30th January 1922.

(3) If any question arises whether or not there is sufficient water in the ferry for the plying of a steamer, the decision thereon of the President or of any person authorised by him in that behalf shall be final.

4. The licensee shall make all the necessary arrangements on the steamer for conveying animals, vehicles (including motor cars and cycles) and goods without any inconveniences to passengers.

5. The licensee shall have the boilers on the steamer examined every year by the Inspector of Steam Boilers and Prime Movers, Madras and obtain a certificate of fitness of the boilers for work. The fees prescribed for the examination by the said Inspector shall be paid by the licensee.

6. The steamer shall ordinarily complete at least one trip an hour between the hours of 6 a.m. and 5 p.m. There shall be no ferry service between the hours of 6 p.m. and 6 a.m. except for the conveyance of Government Mails.

Explanation.—For the purpose of this rule, 'a trip' means a journey across the ferry to and fro.

7. The licensee shall allow the steamer to be inspected by the President or by any person authorised by him in that behalf as often as the President thinks fit.

8. The licensee shall convey passengers, animals, vehicles and goods across the ferry only within the limits of the ferry as notified in the supplement to the *Godavari District Gazette*, dated the 1st May 1900.

9. The licensee shall at his own cost provide at the landing places of the ferry such sheds for the convenience of passengers and their goods as may be required by the President to be put up.

10. Every passenger shall be allowed to carry with him free of toll his bona fide luggage not exceeding a cooly load or one maund (82 ⅔ lb.) in weight. Luggage in excess of the said limit shall be levied toll at the rates prescribed for goods.

11. No toll shall be levied on

(e) Children below six years of age; and

(f) Such other persons as may, from time to time, be exempted by the President.

Explanation.—The exemption conferred by the rule on any person extends also to his luggage and to any animal or vehicle used by him in travelling.

12. The President or such officer as he may appoint may, at any time and for any length of time, attach the ferry steamers for the conveyance of troops, camp equipage and followers, and the licensee shall give all reasonable assistance for the supply of such additional boats as are required to endure their speedy and safe carriage.

13. The President, or any person authorized by him in that behalf, shall determine the weight of cargo and the number of passengers which each steamer can safely carry.

14. The number of passengers and the weight of cargo which each steamer can safely carry shall be legibly painted thereon in English and Telugu and no passenger or cargo in excess of the limit shall, at any time, be carried on the steamer.

15. The bullock shall not be taken with the steamer except when it is actually required.

16. The Engineer of the steamer may during any trip tow range boats to or from Kotipalli ferry, or to any of the recognized ferry landing stages if 24 hours' notice be given by the owner of the boats and if the number of the boats does not exceed the number which the steamer can safely tow or if such towing is not dangerous or will not delay the steamer by more than one hour in its ordinary trip.

17. The steamer may be taken to the rescue of boats in danger on the river during freshes.

18. Salvage fees not exceeding a quarter of the value of the cargo and boat rescued may be levied subject to the following minimum rates:—

	Rs.
For a rajahsi boat	25
For a dingy boat	10
For a range boat	15

In every case the amount of salvage fees to be collected shall be determined by the President. One-half of the fees collected shall be paid to the crew actually on board the steamer at the time in proportion to their salaries. The remaining half shall be equally divided between the East Godavari District Board and the licensee.

19. Whenever the steamer cannot get close to the usual landing place when the river is low and the passengers are landed on any island in the middle of the river, the licensee shall at his cost make the necessary arrangements to transport them from the island to the usual landing place.

The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specifications contained therein, and sign the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender and rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet, grading statements, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Executive Engineer, Nellore Division, Nellore. A copy of the set of contract documents can also be had on payment of Rs. 5 (five only) for each set.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification". Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and not rely himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification sheet. The best class of materials to be obtained from the quarries or other sources defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in the tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor or board later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tools, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with:—

(1) Test, inspection and rejection of defective materials and work.
(2) Cartage.
(3) Construction plant.
(4) Water and lighting.
(5) Cleaning up during progress and for delivery.
(6) Accidents.
(7) Delays.
(8) Particulars of payment.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions or additions at the discretion of the Executive Engineer, Nellore Division, Nellore, or as set forth in the conditions of contract. The tenderer will, however, base his lump sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in nos of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract. This schedule accompanying the lump sum tender shall be written legibly and free from erasures, overwritings or corrections of figures. Corrections where unavoidable, should be made by crossing out, initialing, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates at lump sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of the contract, the drawings, specifications, or quantities accompanying same will be recognized, and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of the programme will be the date as which the site (or province) is handed over to the contractor.

Period after date of commencement.	Percentage of work completed (based on contract lump sum amount).
Six months ..	15 per cent.
Twelve months ..	30 "
Eighteen months ..	50 "
Twenty four months ..	65 "
Thirty months ..	85 "
Thirty-six months ..	100 "

13. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power of attorney authorising others to receive payment on the contractor's behalf.

14. If further necessary information is required, the Executive Engineer of the divn on will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

15. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

16 Dewatering for foundations will be done by the department and sluicing, if found necessary will be paid for at rates fixed during the time of execution.
